Date: 17-11-2024

Accountability for Militants: Strong action against militant groups, particularly those responsible for such heinous acts, including legal and military measures to dismantle their networks.

Support for the Affected Families: The government should provide necessary support, both psychological and material, to the families of the victims, as well as address the displacement and other human rights challenges faced by the Meetei community in the current situation.

We trust that the Government of India will treat this matter with the urgency and seriousness it deserves. The World Meetei Council is committed to ensuring that such atrocities do not go unnoticed and unpunished. We look forward to your immediate intervention to address these grave human rights violations and ensure justice for the victims and their families.

We await your response and hope for swift and decisive action to end the violence and restore peace to the region.
